If customers opt to have a 2 inch or greater water tap, customer is responsible for appropriate cost of meter. In addition, if you are required or opt to have fire protection, you will pay the required cost of a compound meter. The Town of Bryson City's standard meters are Master Meter for 3/4x5/8" and 1". Meters that are 2" and larger including compound meters are Octave meters. The cost to relocate services at the customer's request will be paid by the customer. The cost to relocate services to benefit the Town will the responsibility of the Town.
